To the Patterson family and Greg: Bobby always had a special place in my heart. Patterson family and Greg, rejoice because Bobby is at peace and free from pain. Death should teach us a valuable lesson. Life is short don't let petty things come between you and your loved ones . Don't say I wish I had done this or that after its too late. “ To the family of Bobby. You have my deepest sympathy in the lost of your beloved brother. I have known Bobby most of my life. We were neighbors on Park Street for several years and went to school together. May your memories of Bobby give you peace and comfort in the knowledge that he is no longer suffering and can now rest in peace.

“ Dear Patterson Family,

There are few things more difficult than dealing with the loss of a loved one. We, along with our staff, are honored and humbled that you have chosen our family to care for your family during this time. It is our hope that we have been able, in some small way, to lighten your burden and give proper reverence to a life lived. Please let us know if we can be of further service.

“ Bobby Joe was a one in a million. We grew up together and whenever I came home to BG, I always made it a point to see him or at least talk to him on the phone. He could do hair and cook turkey better than anyone I know. May you be at peace my brother, my friend. You will be missed. Gail Gilbert Rasmussen

“ *As a green freshman in 1977 checking in to Rhodes Harlin Hall at WKU, Bobby was the first phone call I ever received. He was checking on me to see if I was ok and needed anything. He was a very special man who will be missed. We always had this sarcastic remark whenever we saw each other: "How's your momma? Well, how's your mammie?" He would then say to me, "How you doing baby?" He was a true friend. RIP Bobby Patterson. I will miss you. :)*

I have known Bobby for five years, and what a pleasure! He was the most kind and gentle soul, always had an uplifting word for everyone that he came into contact with. I am sure, " it is well with his soul".
